

Thought you and the guys would like to know, people are still stopping me on the street to tell me how awesome you guys were. And some are saying it's the best concert they've been to here.

*“ Queen Nation is one of the hardest working bands in the tribute Universe and seem to be the people’s champion of Queen tributes these days as stated numerous times by Queen Nations loyal “ Legion Of Fans Club “ I think the reason why they arguably are the ultimate queen tribute is because the show isn’t overproduced or cheesy. The artists all take pride in consistently delivering tight Queen Nation stamped show branded performances while staying true and in the boundaries of re-creating a Classic Throwback Queen concert. I describe the show to people as just a no frills Blue Collar in your face sonic gut punch of pure Vintage Queen rock . So I guess you could say , “ We are the People’s Choice Queen Tribute Champions” No pun intended , but I kind of like how that sounds maybe we we’ll use it ”*

**Just a quick note to tell you how impressed I was with your incredible talent, your genuine interest in making the audience ‘feel’ the music, and your warm and friendly spirit...not a slacker in the group. Your energy level was overwhelming and raves from the audience helped to prove your worth as the best Queen tribute band ever....You ARE the Champions!! Thank you for stopping off in Nashville and coming to Tullahoma, TN. I will keep you in my radar and have you back when I can. Best always and keep the music going,**

Queen Nation brought magic to The World's Greatest Tribute Bands.  
Your musical talents, your energy to perform and your passion for perfection were all spot on.  
Thank you for being a part of the show, and being so wonderful and professional to work with at every turn.  
I'm happy to have said Queen Nation was a part of The World's Greatest Tribute Bands!

Rock on~

In profiling the tribute band scene in Southern California one can quickly catch on to the fact that the people and musicians comprising these tributes with varied musical styles all have one thing in common. They are first and foremost talented and seasoned players & singers and are completely dedicated to the “art” of paying tribute to the classic music personalities they portray on stage every night. And they play everywhere. From festivals, private functions to 1000+ seat theaters every performance is given the same zest and power you would expect from the real deal.

One of these bands will completely and satisfactorily take your breath away, The band is "[Queen Nation](#) – A Tribute to the Music of [Queen](#)". With guitarist Mike McManus, bassist Parker Combs, drums and percussion Peter Burke & on piano and lead vocals the amazing Greg Finsley, Queen Nation brings not only the feel and excitement of a Queen concert, but with Greg Finsley the band mystically transforms into their iconic tribute. Finsley embodies Freddie Mercury in both style and substance but is a complete knock out in recreating all that was memorable about Mercury's vocal style. McManus brings to life Brian May's iconic guitar riffs with Parker Combs & Peter Burke rounding out that solid back beat classic rockers know and love. It's actually a knock out experience every Queen fan should experience. They currently have upcoming dates all around Southern California so look them up at their website....they will indeed Rock You!
